VACCINATION UNITES US

A Global Symposium

An educational event
on companion animal
vaccination for the
entire clinic team

Hear from 12 veterinary
experts from around the globe.

Medical Track

- Learn about advancements in canine parvovirus, leptospirosis and feline leukaemia
- Gain insights on vaccination guidelines for cats and dogs
- Look into the future of companion animal vaccines

Business Track

- Explore ways to improve the vaccine appointment experience for both pets and clients
- Master communication skills to navigate cost and vaccine hesitancy conversations with ease
- Explore strategies to advocate for vaccination beyond your clinic walls
